

PARIS

ÉCOLE D'ART AICP

The Académie Internationale de Coupe de Paris (AICP) offers programs for managers and craftsmen specializing in the making of clothing models for replication in small- and large-scale apparel manufacturing. Graduates assume positions in which they are responsible for the design and fabrication of model garments for clothing collections and for making alterations to prototypes and samples. They also help coordinate production and ensure product quality and compliance with standards.

◆ MAIN PROGRAMMES OF STUDY

- Certificate: Model fabricator
- Level III certificate (RNCP, national registry of occupational certifications): International apparel model fabricator using CAD
- Level IV certificate (RNCP): Apparel line model maker
- Machine operator's certificate: Fabrication technician

◆ STRENGTHS

Vocational, technical, and practical education in the specialized skills and systems needed for the fabrication of apparel models. Onsite training is complemented by mandatory internships with companies. A preparatory course introduces students to the making of clothing, so that they are better able to absorb the various techniques involved in model making. The AICP maintains strong connections with sector professionals in firms, professional organizations, and government agencies.
